vols 9 17 include decisions of the war labor board

this book constitutes the refereed proceedings of the 4th international conference on simulation modeling and programming for autonomous robots simpar 2014 held in bergamo italy in october 2014 the 49 revised full papers presented were carefully reviewed and selected from 62 submissions the papers are organized in topical sections on simulation modeling programming architectures methods and tools and systems and applications

this volume contains the papers presented at cp 2009 the 15th international conference on principles and practice of constraint programming it was held from september 20 24 2009 at the rectory of the new university of lisbon portugal everyone involved with the conference thanks our sponsors for their support there were 128 submissions to the research track of which 53 were accepted for a rate of 41 4 each submission was reviewed by three reviewers with a small number of additional reviews obtained in exceptional cases each review was either by a programme committee member or by a colleague invited to help by a committee member thanks to their particular expertise papers submitted as long papers were accepted at full length or not at all it is important to note that papers submitted as short papers were held to the same high standards of quality as long papers there is thus no distinction in these proceedings between long and short papers except of course the number of pages they occupy as it happens the acceptance rates of short and long papers were very similar indeed there were 13 submissions to the application track of which 8 were accepted for a rate of 61 5 papers underwent the same review process as regular papers and there was not a separate committee for reviewing application track papers however papers in the application track were not required to be original or novel research but to be original and novel as an application of constraints
